IN THE CLAIMS

Please amend the claims as follows:

Claim 1 (Currently Amended): A cosmetic <u>scrubbing</u> process for treating at least one skin irregularity selected from the group consisting of a visible skin irregularity, a tactile skin irregularity, and a combination thereof, <u>wherein the at least one skin irregularity is selected</u> from the group consisting of at least one wrinkle, at least one fine line, at least one pigmentary mark, at least one scar, and combinations thereof,

the method comprising

- (a) topically applying to the skin a composition comprising, in a physiologically acceptable medium, at least 10% by weight of 8-hexadecene-1,16-dicarboxylic acid,
- (b) leaving the composition in contact with the skin for a time ranging from 5 minutes to 30 minutes 6 hours, and
 - (c) removing the composition by rinsing.

Claims 2-3 (Cancelled).

Claim 4 (Previously Presented): The process of Claim 3, wherein the at least one skin irregularity is the at least one scar, and wherein the at least one scar is an acne or a chickenpox mark.

Claim 5 (Previously Presented): The process of Claim 1, wherein the process is performed on a human with acne, at least one wrinkle, at least one scar, at least one pigmentation defect, or a combination thereof.

Claim 6 (Previously Presented): The process of Claim 1, wherein the amount of 8-hexadecene-1,16-dicarboxylic acid represents from 10% to 50% of the total weight of the composition.

Claim 7 (Previously Presented): The process of Claim 1 [[6]], wherein the amount of 8-hexadecene-1,16-dicarboxylic acid represents from 15% to 35% of the total weight of the composition.

Claim 8 (Previously Presented): The process of Claim 1, wherein the composition further comprises, in a physiologically acceptable medium suitable for topical application to the skin: from 10% to 50% by weight of 8-hexadecene 1,16 dicarboxylic acid and from 0.1% to 15% by weight of at least one β -hydroxy acid, relative to the total weight of the composition.

Claim 9 (Previously Presented): The process according to Claim 8, wherein the at least one β -hydroxy acid is selected from the group consisting of a salicylic acid, a salt of a salicyclic acid, and combinations thereof.

Claim 10 (Previously Presented): The process of Claim 9, wherein the at least one β -hydroxy acid is a salicyclic acid, and wherein the salicylic acid is 5-n-octanoylsalicylic acid.

Claim 11 (Previously Presented): The process of Claim 8, wherein the amount of the at least one β -hydroxy acid represents from 0.2% to 10% relative to the total weight of the composition.

U.S. application serial no. 10/589,975 Reply to the Official Action of October 13, 2010

Claim 12 (Cancelled).

Claim 13 (Currently Amended): The process of Claim $\underline{1}$ [[12]], wherein the at least one skin irregularity is the at least one scar, and wherein the at least one scar is an acne or a chickenpox mark.

Claims 14-20 (Cancelled).
